BEST SYRINGE IN THE WORLD.

Physicians' and Druggists' Notice.

It is finally conceded by the prominent physicians throughout the United States, that the **Fountain Syringe** is superior to all others, whether used as a DOUCHE FOR CATARRH or for any other purpose where an enema is required. It is self-acting; no valves to get out of order; no pumping; no air injected. Be sure and send for Circular before purchasing any of the BULB SYRINGES. We refer by permission to Chas. E. Buckingham, M.D., John B. Reynolds, M.D., George Hayward, M.D. Dr. Winslow Lewis says. "During a professional life of nearly fifty years, he has used all the various syringes made here or abroad. All of them are more or less complicated, the valves soon getting out of order, and those without valves, inconvenient. The Fountain Syringe satisfactorily accomplishes all desiderata required. It deserves all success, and undoubtedly will command it."

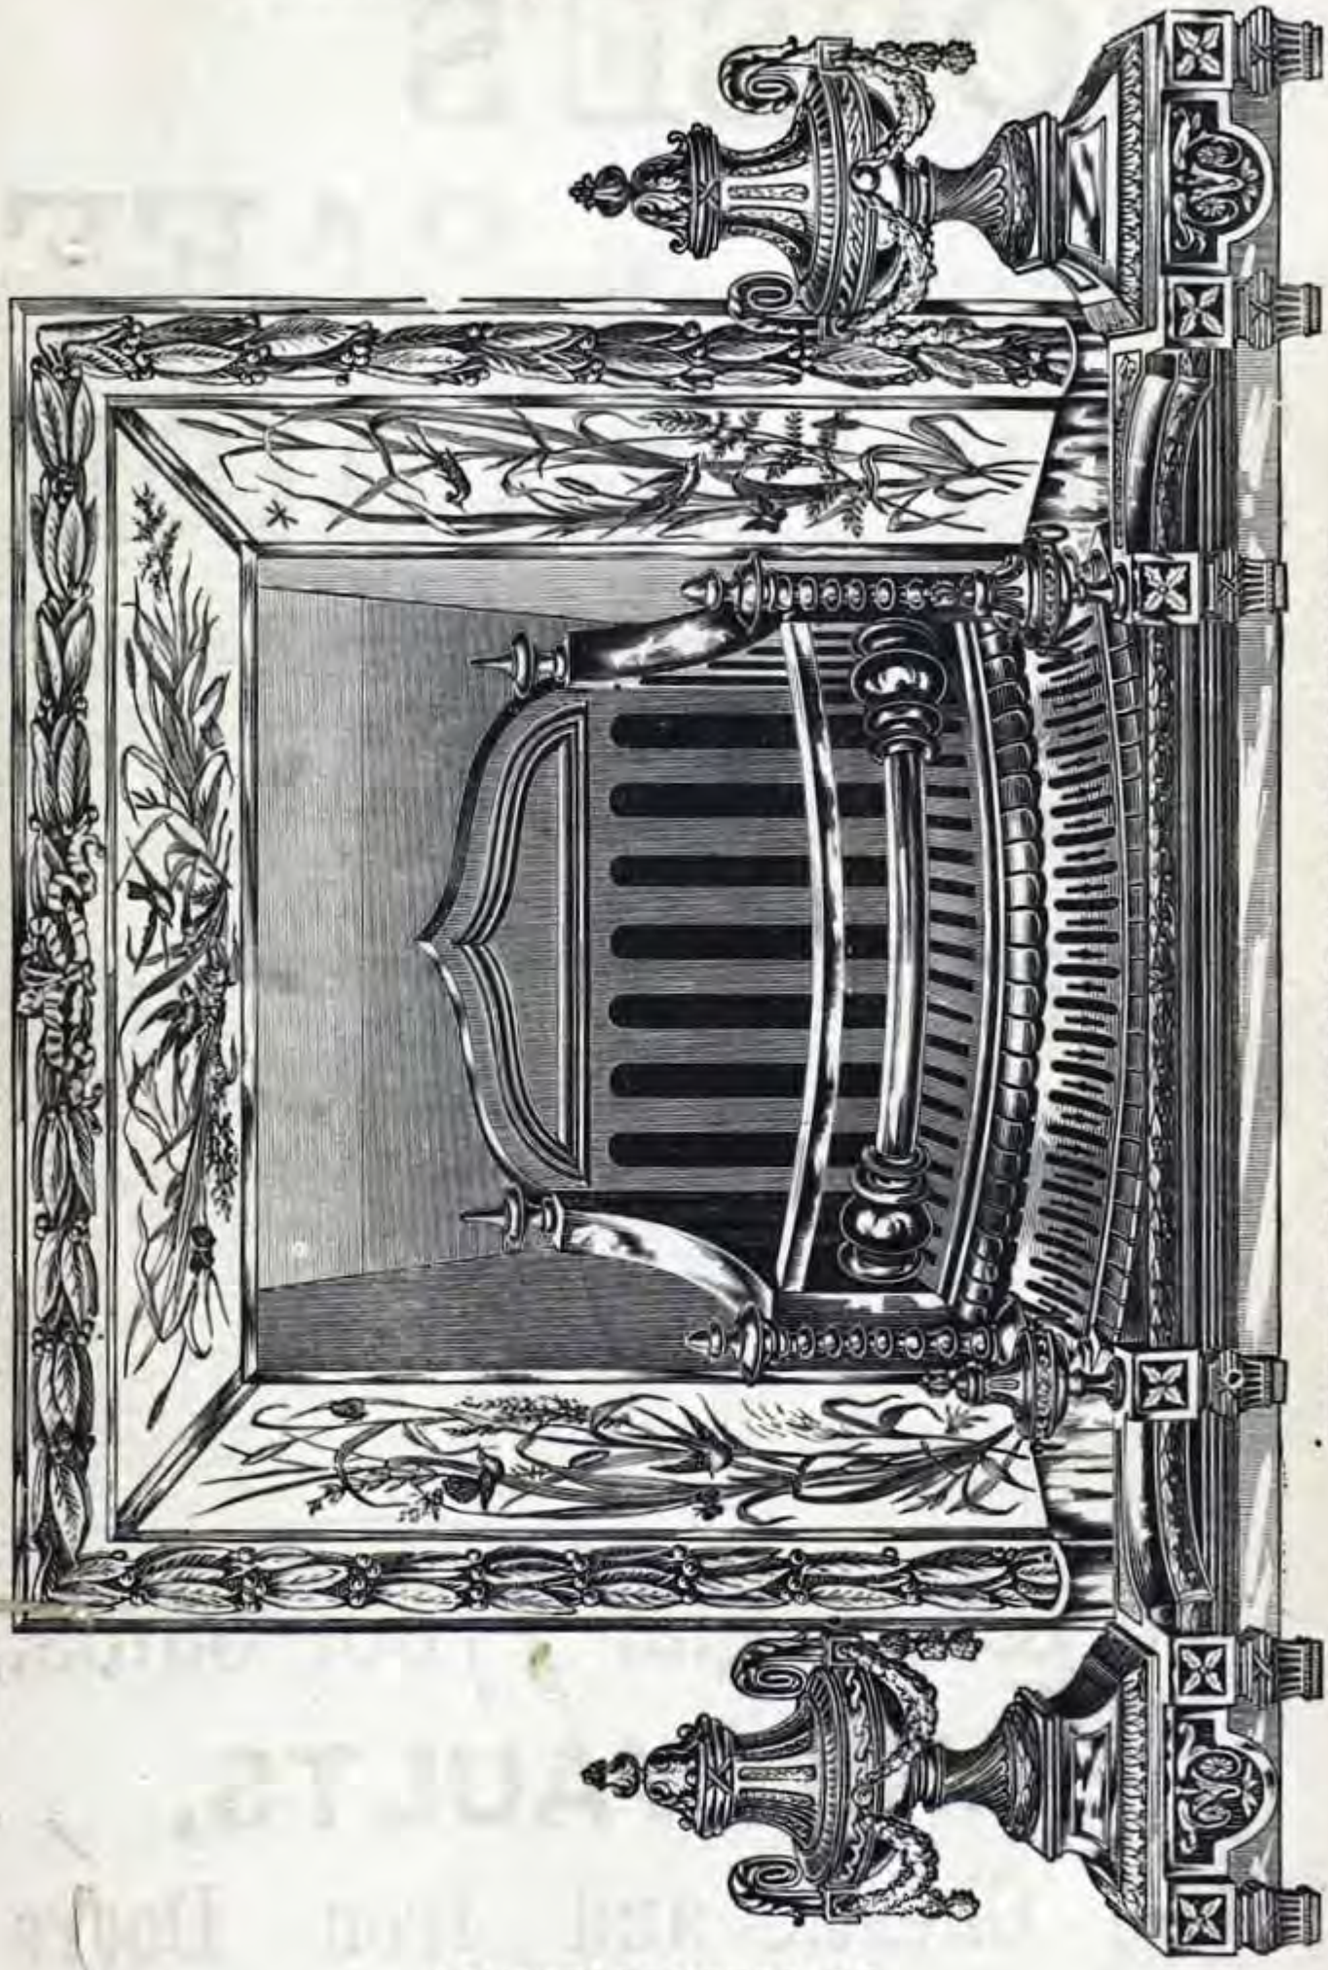
FROM THE SCIENCE OF HEALTH.

OPEN FIRES. — In every home there should be at least one open grate, or some other arrangement for burning wood or soft or hard coal. A fire which can be seen as well as felt — a cheerful, bright, blazing fire, with shovel and tongs, and fender, too, if you please, which will attract the family by its social influences — is a grand thing in a home. Those black, grim, tartarean flues, filled with the stale odors of cellar and hot air-chamber and seething water-tank, and emitting clouds of pulverized ashes to cover your furniture and stifle your lungs, are among the greatest banes of family enjoyment and comfort. It is all well enough to have one's dwelling warmed from top to bottom, and to have no coals to carry beyond the furnace, but this heating system has done immense mischief to the family powers, scattering the members of it all over the house, and furnishing not one attractive spot in which the inmates will gather, as by instinct they do, to enjoy the cheery comfort of the fireside. There is no fireside in most of our modern houses. There are only holes in the floor or in the walls. And we are disposed to think that the good ventilation of the open fire adds not a little to the unconscious blessings of its hospitable and domestic influence. The sight of the little folks, as they sit musing and amused while the wood-fire burns, and watching the fantastic flames and the glowing coals, is worth many times the cost of that cord of hickory or oak at city prices; and a wise household would rather part with the furnace which that bright blaze supplements and atones for than with the low grate which makes the family circle a real thing. Try it, ye who can, and see if the moral, æsthetic, and domestic power of this style of home-comfort is over-estimated. — *The Science of Health.*

WM. H. JACKSON & CO.,

Union Square, 17th Street side, New York.

MANUFACTURERS OF



GRATES & FENDERS.

[OVER.]

WM. H. JACKSON & CO., Union Square, N. Y.,

[NO CONNECTION WITH ANY OTHER ESTABLISHMENT.]

FINE GRATES A SPECIALTY.

SCALE 1 1-2 IN. TO THE FOOT, OR 1-8 IN. TO THE INCH.

FANCY MARBLES FOR FACINGS AND HEARTHS.

And, in fact, every thing pertaining to Wood or Coal Fires, or Open Fireplaces.

HAVE NO OTHER WAREROOMS.

STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Washington Street No. 639 comes, you look at Washington St., upon page 42, and find that Hollis St. runs from 617, and Common St. from 661, showing that 639 Washington would come about half away between Hollis and Common.
